

We have developed to the market modern windshield washer fluid family. New features are fragrances, colors, VTT certified packaging and wide frost resistance.

Our goal has been to develop the best possible cleaning solution.

To the solution was added chemicals, which keep the windows clear and do not damage car plastic or rubber parts.

Wide frost resistance from – 8 degrees up to -70 degrees Celsius.

Product is manufactured in Finland in a new modern production line.

## WHY ETAPRO?

- Finnish quality
